

**YEAR 2000 COMPLIANCE LETTER**

**JANUARY 4, 1999**

**FOR GENERAL DISTRIBUTION TO INTERESTED PARTIES**

**MANUFACTURING AND ACCOUNTING SYSTEMS**

On April 28, 1998 a full audit for Y2K compliance of our computer systems used for manufacturing, engineering, testing and accounting was completed. At that time systems and software not Y2K compliant were identified. On January 3, 1999 all non-compliant systems had been modified or replaced and tested. ACK Technologies is now fully Y2K compliant for all systems used for manufacturing, engineering, testing and accounting.

**THE FOLLOWING PRODUCTS ARE FULLY Y2K COMPLIANT**

**MODEL: A-30 ALTITUDE ENCODER (TSO C-88a)**  
**MODS: ALL MOD LEVELS**  
**SERIAL NUMBERS: ALL SERIAL NUMBERS**
